

1 Hour Pre Test Lesson (Any Car)

The Final Lesson On The Day Of Your Driving Test.

Out of all the lessons you might do including your EDT sessions, refresher lessons, mock tests, etc, this is probably the most important one to do. The pre test lesson is done on the day of your driving test and will put to bed any worries or fears you may have about the Driving Test. It's an invaluable lesson to take as it consists of a run over of the bonnet checks, hand signals, secondary controls, etc. Items that are of the utmost importance if you didn't get a chance to do the mock test. If you did manage to do the mock test and failed it with us, this lesson will correct the mistakes you made and set your mind clear for the test.
